2018 Physical Inventory Schedule To Begin September 27th

September 27th marks the start of the 2018 physical inventory agenda for Bendix (BCVS and BSFB) manufacturing locations at a majority of our North American facilities. Our Sparks, Nevada, Montreal, and Huntington main plants are excluded from the 2018 physical inventory schedule.

During the scheduled inventory period, each impacted Bendix facility will be in complete shut down. Only “truck down” emergency air shipments will be addressed by the location during this brief period.

Bendix facilities included in the 2018 inventory activities include:

United States:

| Location | Plant Code | Inventory Timing |
|---------------------------|-------------------|-------------------------|
| Huntington Modules Center | 3135 | November 29 – 30, 2018 |
| Bowling Green Main Plant | 3916 | November 1 – 3, 2018 |
| Bowling Green Tool Crib | ---- | November 14 – 16, 2018 |
| Huntington Tool Crib | ---- | October 24 – 26, 2018 |
| Huntington PSC Inventory | ---- | September 27 – 28, 2018 |
| Huntington RSC Inventory | ---- | September 27 – 28, 2018 |
| North Aurora | 3138 | November 30, 2018 |

Mexico:

| | | |
|---------------------------------|------|------------------------|
| Acuña Tool Crib | ---- | December 6 – 8, 2018 |
| Acuña Customer Consignment Area | ---- | October 18 – 19, 2018 |
| Acuña Plant III | 3911 | October 24 – 25, 2018 |
| Acuña Plant I and II | 3131 | November 14 – 16, 2018 |
| Mexico City | 3171 | December 11, 2018 |

As always, our goal is uninterrupted, quality service for our customers. As a Bendix employee, if you have any questions or need additional information regarding the 2018 inventory schedule and its impact on ongoing business operations for our OE and Aftermarket customers, please contact Kimberly Larkey at (440) 329-9630 to reach a workable solution.
